## Workshop Description

Workshop presents highlights from Rev. Doug's book *Frontiers of Knowledge* on frontier scientific findings and consciousness and spiritual experiences that are forcing us to expand our concepts of reality to include the active role of spiritual intelligence (souls) in a multidimensional universe. In each workshop, highlights will be presented from one of *Frontiers of Knowledge's* 4 parts: 1) Science and the Exploration of Reality, 2) Evidence Supporting New [Spiritual] Views of Reality, 3) Subtle and Expanded Dimensions of Reality, and 4) Integrated Concepts of Reality and summary highlights. Each session will include an experiential regression that progressively builds from an introduction to the regression experience, to a past-life experience, and culminating in a between-lives experience of the nonphysical realm of souls. There you will have the opportunity to meet your spiritual family, your council of advisors, etc. [Note: in group regression sessions, experiences cannot be guaranteed.]

## Each of the Four Sessions Will Present Highlights from Frontiers of Knowledge on

1. Quantum physics' strangeness, astronomy's fine-tuned universe, new evolutionary biology information challenging Neo-Darwinism, and mind-blowing consciousness research.
2. Scientific investigations of NDEs and reincarnation experiences plus between-lives regression findings that provide us with the first systematic view of our nonphysical "home."
3. The human subtle-energy system and how it explains strange mind-body phenomena plus the consistent scientific and spiritual story on our parallel & multiple dimensional universes.
4. Creating a new knowledge discipline for these very strange phenomena. Explaining two of our biggest scientific mysteries: consciousness and love. Plus a summary of our new framework of reality.

## Study Aids

Each student, on registering, will be provided an 8-page overview paper from Rev. Doug to introduce many of the new concepts. Also, his two books: *Frontiers of Knowledge* and *Framework of Reality* [the "CliffsNotes" for *Frontier*] will be available at OGOT (or at class) for purchase. His website—[www.douglaskinney.com](http://www.douglaskinney.com)—provides additional information on key scientific and spiritual topics.

## About Rev. Douglas Kinney

He is a New Thought Minister, system scientist, spiritual regression explorer, spiritual journalist, poet, and author. He has made presentations at the annual conferences of the International New Thought Alliance and the Society for Scientific Exploration, and to regional IONS groups (Baltimore, Richmond, and Eastern Shore).
