

Knowledge and Experiential Workshop on Frontier Scientific Investigations & Our Spiritual-Based Reality

By Rev. Douglas Kinney

4 Wednesday Sessions: May 18 thru June 8, from 7 to 9 pm

Sponsored by Unity of Hagerstown

At St. Mark's Church, 18313 Lappans Rd. Boonsboro (4 m South of I-70)

Cost: Weekly class love offering (Suggested \$ 20)

For Registration Details, Contact Rev. Boyer at 304-409-5940 or sandy.boyer@gmail.com

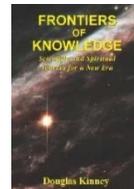

Workshop Description

Workshop presents highlights from Rev. Kinney's book *Frontiers of Knowledge* on frontier scientific findings and consciousness and spiritual experiences that are forcing us to expand our concepts of reality to include the active role of spiritual intelligence (souls) in a multidimensional universe. In each workshop, highlights will be presented from one of *Frontiers of Knowledge's* 4 parts: 1) Science and the Exploration of Reality, 2) Evidence Supporting New [Spiritual] Views of Reality, 3) Subtle and Expanded Dimensions of Reality, and 4) Integrated Concepts of Reality and summary highlights.

Each session will also have an experiential segment: (1) an introductory regression experience, (2) a past-life experience, (3) experiencing our human subtle-energy body, and (4) being initiated into having written conversations with our higher self (Neal Donald Walsch's Conversations with God method).

Each of the Four Sessions Will Present Highlights from Frontiers of Knowledge on

1. Quantum physics' strangeness, astronomy's fine-tuned universe, new evolutionary biology information challenging Neo-Darwinism, and mind-blowing consciousness research.
2. Scientific investigations of NDEs, reincarnation experiences, plus between-lives regression findings that provide us with the first systematic view of our nonphysical "home." These are unusual consciousness phenomena that require the concept of the human soul to explain.
3. The human subtle-energy system and how it explains strange mind-body phenomena plus the emerging scientific and spiritual information on parallel and multiple dimensional universes.
4. Creating a new knowledge discipline for these very strange phenomena. Explaining two of our biggest scientific mysteries: consciousness and love. Plus a summary of a new framework of reality.

Study Aids

Each student will be provided via email an 8-page PDF overview paper to introduce many of the new concepts. Also, his two books: *Frontiers of Knowledge* and *Framework of Reality* [the "CliffsNotes" for *Frontier*] will be available for purchase. His website— www.douglaskinney.com provides additional information on key scientific and spiritual topics, plus additional downloadable PDF papers on key topics.

About Douglas Kinney

A New Thought Minister, system scientist, spiritual regression explorer, spiritual journalist, poet, and author. He has made presentations at the annual conferences of the International New Thought Alliance, the Society for Scientific Exploration, and to regional IONS groups (Baltimore, Richmond, and Eastern Shore). He is just completing his first presentation of this workshop at a Baltimore New Thought center: the One God One Thought Center.

Workshop can be fitted into a one weekend event of 7-8 hours spread over Fri. & Sat. (a 2-3 hr. Friday evening session plus a Sat. 5- to 6-hr session) or reduced to a one day Sat. event of 5- to 6-hr. To discuss this workshop for your organization, contact Rev. Doug at douglaskinney@msn.com.
